## Story 029

One day during cooking class, the teacher was telling her students about her secrets for preparing the perfect sauce. When she ordered the class to start preparing their assignments, she added, “Don’t forget to use wooden spoons.”

As a boy stirred his sauce, he thought about the physics behind the mystery of the wooden spoon and decided that it must have something to do with heat conduction.

He approached the teacher to test his theory and asked, “Why wooden spoons?” She replied, “Because if I had to sit here listening to all your metal spoons banging against metal pots, I’d go crazy.”

## Story 030

In a hospital, a woman was sitting by the side of her husband, who was about to wake up from anesthesia after surgery.

Slowly, the man opened his eyes, looked at his wife and said, “You’re beautiful!” before he fell asleep again. She had never heard her husband say such a thing, so she decided to stay by his side, hoping to hear it again.

Half an hour later, he opened his eyes again, looked at his wife and said, “You’re cute!” The wife was disappointed because this time it was “cute” instead of “beautiful.” So she asked, “What happened to ‘beautiful’?”

He answered, “The drugs are wearing off.”
